

1. To install Teamviewer you first need to go to the Teamviewer website www.Teamviewer.com

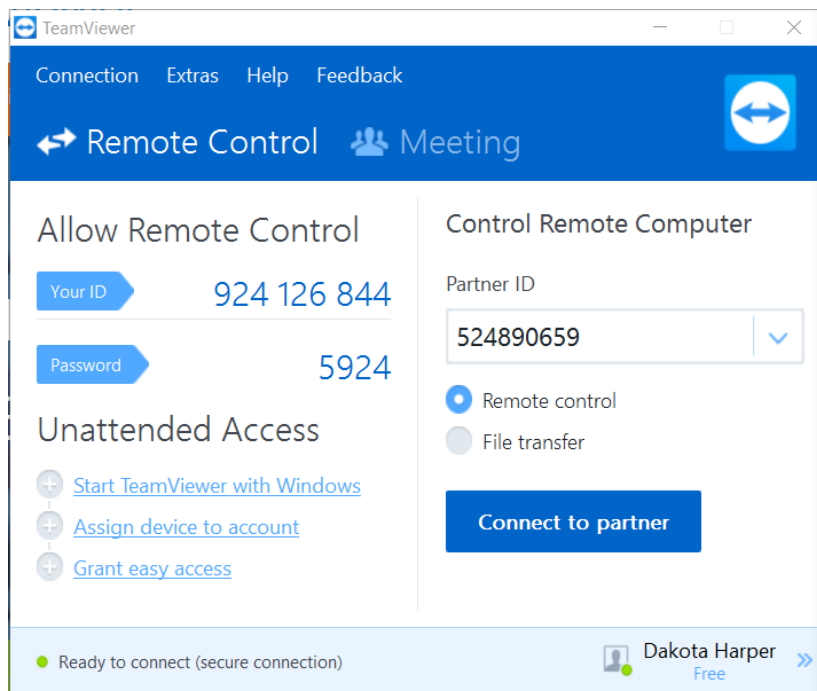

2. On the Teamviewer website click the green "Download Teamviewer" button to start the download

3. When the download is finished, click on the download in the bottom left to start the install

4. When the install pops up, select "basic install" and "personal/non-commercial use" then click "Accept-finish"

5. Once the install finishes, Teamviewer will popup. Teamviewer is now installed!
